

# GLOBAL INNOVATION FORUM OSAKA

We support domestic and international innovations!

## What's GIF?

OCCI launched this project in 2019 to promote global open innovation. The program supports the overseas expansion of domestic companies and startups, and collaboration between overseas startups and domestic companies.

## GIF Challenge

~Supporting the overseas expansion of domestic companies and startups ! ~

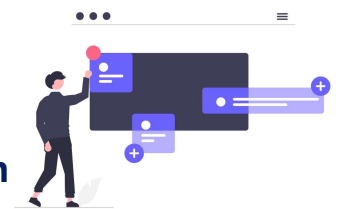

Overseas expansion is a move with great potential in business, such as developing and expanding sales channels and launching new businesses. OCCI provides support for exhibiting at overseas exhibitions such as CES in the U.S., hold seminars on overseas expansion, and disseminate information.

### Main Programs

Support for  
exhibiting at  
overseas  
exhibitions

Organize seminars  
and provide  
information for  
overseas expansion

## GIF Meetup

~Supporting collaboration between overseas startups and domestic companies!~

We provide opportunities to meet startups from around the world that have a diverse range of cutting-edge technologies. We will host live pitches by overseas startups on their technologies and their desire to collaborate with Japanese companies, as well as support for matching them with Japanese companies!

Startups from various countries with  
cutting-edge technologies will participate!
